

### **REMARKS**

This paper is responsive to any paper(s) indicated above, and is responsive in any other manner indicated below.

### **PENDING CLAIMS**

Claims 21-31 were pending, under consideration and subjected to examination in the Office Action. Appropriate claims have been amended, canceled and/or added (without prejudice or disclaimer) in order to adjust a clarity and/or focus of Applicant's claimed invention. That is, such changes are unrelated to any prior art or scope adjustment and are simply refocused claims in which Applicant is presently interested. At entry of this paper, Claims 21-31, 34 and 35 will be pending for further consideration and examination in the application.

### **REWRITTEN ALLOWABLE CLAIM(S)**

Claims 32-35 have been indicated as being allowable if rewritten, as indicated within the "Allowable Subject Matter" section on page 6 of the Office Action. Features/limitations of ones of the allowable dependent claims 32 and 33 have been incorporated into the independent claim(s) 21 and 25, respectively, thereby rendering the rewritten independent claim(s) and any claims dependent therefrom allowable, i.e., all of presently-pending claims 21-31, 34 and 35 should be allowable as presently rewritten. In view of the incorporation of the features/limitations of claims 32 and 33 into the independent claims, such allowable dependent claims have been canceled (without prejudice or disclaimer) to avoid redundant claims.

Further, ones of the dependent claims have been amended to remove redundant limitations. Reconsideration and renewal of the allowance are respectfully requested. The Examiner is respectfully requested to make an independent assessment as to whether accurate and sufficient allowable features/limitations have been incorporated into the above-mentioned claims. Applicant and the undersigned respectfully thank the Examiner for such indication of allowable subject matter.

### **REJECTIONS UNDER 35 USC '102 - TRAVERSESED**

The 35 USC '102 rejection of claims 21-31 as being anticipated by Jenrick et al. (U.S. Patent Pub 2004/0016621) is respectfully traversed, but the present amendment of such claims (without prejudice or disclaimer) to obtain a patent (without prejudice or disclaimer) on ones of the allowable claims as quickly as possible, has rendered such rejection(s) obsolete. Gratuitous traversal arguments concerning the rejection(s) are thus omitted for brevity. Further arguments concerning such rejection(s) are left for the future at a time when the disputed canceled claims are reintroduced for consideration. Based upon the following, reconsideration and withdrawal of such rejection(s) are respectfully requested.

The above statements, or any present amendment or cancellation of claims (without prejudice or disclaimer), should not be taken as an indication or admission that the objection or rejection was valid, or as a disclaimer of any scope or subject matter, but is merely use of a procedural approach to obtain a patent (without prejudice or disclaimer) on ones of the allowable claims as quickly as possible.

### **ALL CLAIMS IN CONDITION FOR ALLOWANCE**

In view of the fact that all prior art rejected claims have now been amended without prejudice or disclaimer, and in view of the fact that all remaining claims have been amended to include the features/limitations indicated as being allowable, it is respectfully submitted that all presently pending claims are now in condition for allowance. A Notice of Allowance with respect to the present application is respectfully requested.

### **EXAMINER INVITED TO TELEPHONE**

The Examiner is herein invited to telephone the undersigned attorneys at the local Washington, D.C. area telephone number of 703/312-6600 for discussing any Examiner's Amendments or other suggested actions for accelerating prosecution and moving the present application to allowance.

### **RESERVATION OF RIGHTS**

It is respectfully submitted that any and all claim amendments and/or cancellations submitted within this paper and throughout prosecution of the present application are without prejudice or disclaimer. That is, any above statements, or any present amendment or cancellation of claims (all made without prejudice or disclaimer), should not be taken as an indication or admission that any objection/rejection was valid, or as a disclaimer of any scope or subject matter. Applicant respectfully reserves all rights to file subsequent related application(s) (including reissue applications) directed to any/all previously claimed limitations/features which have been subsequently amended or cancelled, or to any/all limitations/features not yet claimed, i.e., Applicant continues (indefinitely) to

maintain no intention or desire to dedicate or surrender any limitations/features of subject matter of the present application to the public.

### **CONCLUSION**

In view of the foregoing amendments and remarks, Applicant respectfully submits that the claims listed above as presently being under consideration in the application are now in condition for allowance.

To the extent necessary, Applicant petitions for an extension of time under 37 CFR '1.136. Authorization is herein given to charge any shortage in the fees, including extension of time fees and excess claim fees, to Deposit Account No. 01-2135 (Case No. 500.43493X00) and please credit any excess fees to such deposit account.

Based upon all of the foregoing, allowance of all presently-pending claims is respectfully requested.

Respectfully submitted,

ANTONELLI, TERRY, STOUT & KRAUS, LLP
